

DNYANESHWARI SANTOSH THOPATE

B.E. - Computer Science & Engineering

Ph: +91-9067341018

Email: dnyaneshwarithopate.sknsits.comp@gmail.com
pune, Maharashtra, India - 410401

KEY EXPERTISE

Java Core Java Javascript HTML CSS cybersecurity

EDUCATION

SKN Sinhgad Institute of Technology & Science

2022 - 2026

B.E. - Computer Science & Engineering | CGPA: 6.81 / 10

Residential Junior College , Ahemadnagar, Ahemadnagar

2022

12th | MSBSHSE | Percentage: 63.33 / 100

Shri Dhokeshwar Secondary and Higher Secondary School , Takali Dhokeshwar, Ahemadnagar

2020

10th | State | Percentage: 95 / 100

INTERNSHIPS

internpe | IT / Computers - Software
intern

13 Jan, 2025 - 09 Feb, 2025

Key Skills: AIML

Completed a one-month online internship in the domain of Artificial Intelligence and Machine Learning (AIML). Gained practical experience in data preprocessing, supervised machine learning algorithms, and model evaluation techniques. Developed multiple end-to-end ML projects including: Car Price Prediction Model using regression techniques on real-world vehicle datasets. Breast Cancer Prediction Model using classification algorithms for early disease detection. Enhanced skills in Python programming, data analysis, and the application of ML models to real-world problems.

PROJECTS

AI-for-Carbon-Footprint-Tracking

10 Feb, 2025 - 19 Jun, 2025

Team Size: 2

Key Skills: visualization feature selection regression model EDA python pandas numpy

Project Link: <https://github.com/dnyaneshwarithopate/AI-for-carbon-footprint-tracking>

Designed and implemented a machine learning-based system to estimate and track the carbon footprint of daily activities using AI. The project aimed to promote environmental awareness by analyzing user or industry-level data (e.g., transportation, energy usage, consumption patterns) to calculate carbon emissions.

Used regression algorithms to predict carbon output based on various lifestyle or operational inputs. Applied data preprocessing, feature engineering, and model evaluation to ensure accurate and interpretable results. This project aligns with green skills and sustainability goals, encouraging smarter and more eco-conscious decisions.

Personal Portfolio & Resume Web Application using Laravel

15 Mar, 2025 - 01 Apr, 2025

Team Size: 1

Key Skills: HTML CSS javascript bootstrap php MySQL Git

Project Link: <https://dnyaneshwari.xyz/>

A responsive and dynamic web application built using the Laravel PHP framework. The platform enables users to create, manage, and showcase their resumes, projects, skills and personal details online. Features include a secure admin panel real-time form validation, light/dark mode toggle, contact form, and SEO-optimized layout. The project highlights use of MVC architecture, with a focus on scalability, clean UI, and backend integration.

SEMINARS / TRAININGS / WORKSHOPS

Web Application Development organized under the (ISTE) Institute Name: ISTE 12 Feb, 2025 - 15 Jun, 2025

Key Skills: html, CSS Javascript ajax

The Value Added Program (VAP) on Web Application Development introduced students to the end-to-end process of building dynamic web apps. It covered essential frontend technologies, with hands-on practice in creating responsive user interfaces and connecting them to databases using modern web frameworks.

Training on Flutter Cross Platform Application Development 22 Aug, 2024 - 25 Aug, 2024

Institute Name: Rubicon

Key Skills: Mobile Application Development , Flutter

Completed training on Flutter, a UI toolkit developed by Google for building cross-platform mobile applications using a single codebase. The training focused on developing interactive and responsive apps for Android and iOS, covering the core concepts of Dart programming, widget-based architecture, and state management.
